## Manual (with screen shots):

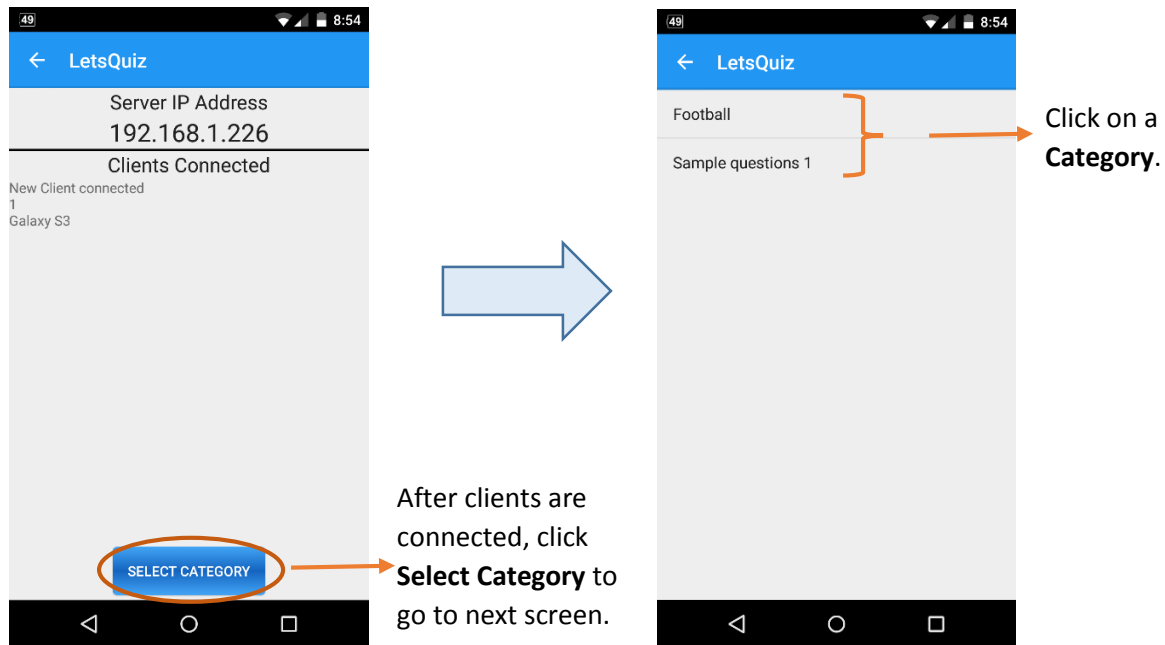

On opening the **LetsQuiz** application.

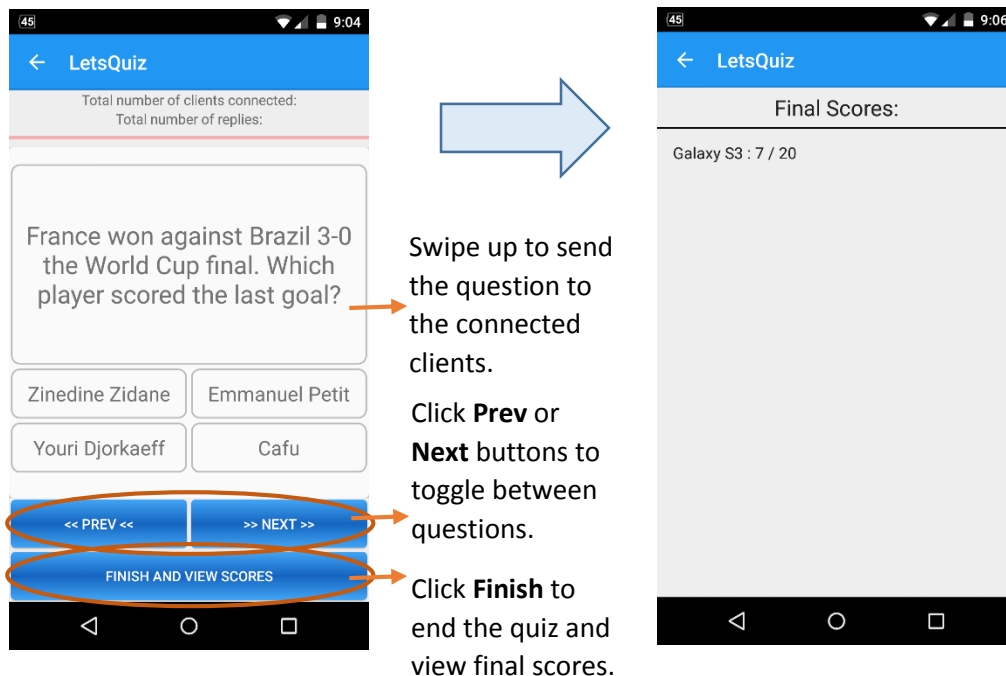

Click the **Menu** (three dots on top right corner) -> **Add Questions**.

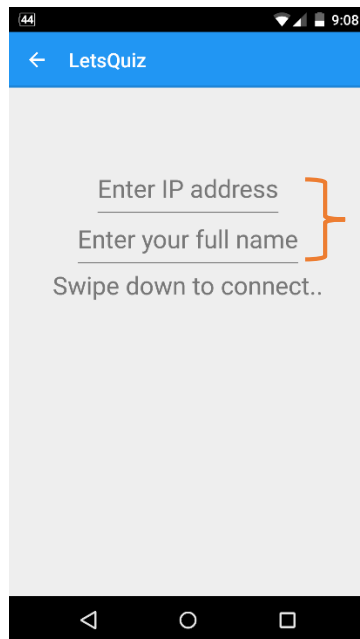

On selecting **Conduct Quiz** in the main screen,

Selecting questions and sending it. Finally viewing the scores.

On selecting **Join Quiz** in the main screen,

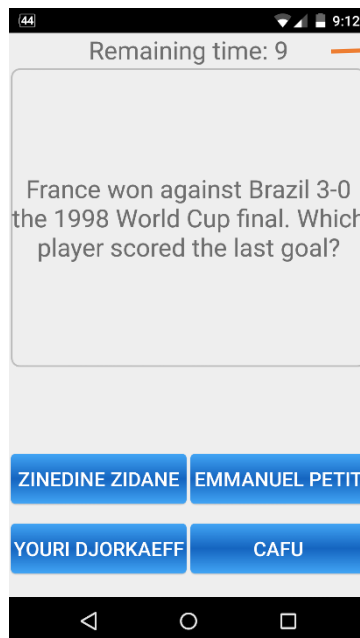

Enter the Server's **IP address** and Client's **full name**. Swipe down to connect.

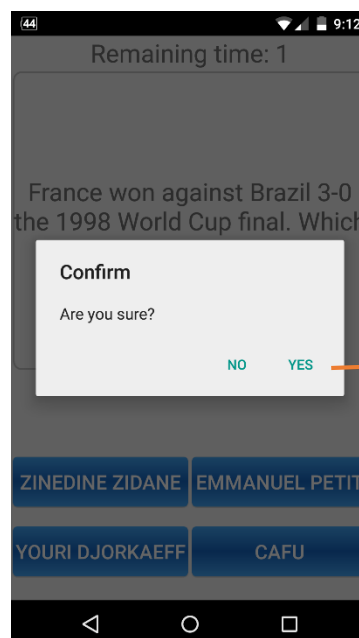

This screen shows up whenever the Client is waiting for the Server to send a question.

Answering questions on the Client,

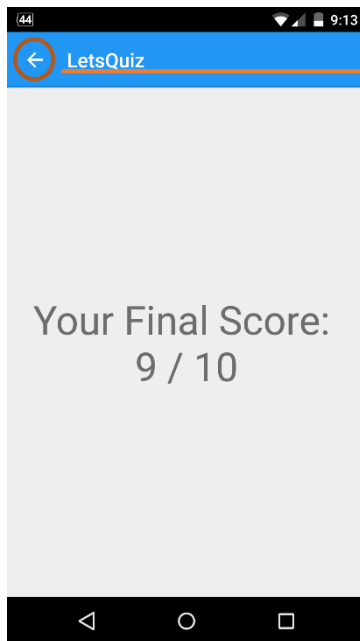

Timer shows the **Remaining time** to answer. Score is based on this time.

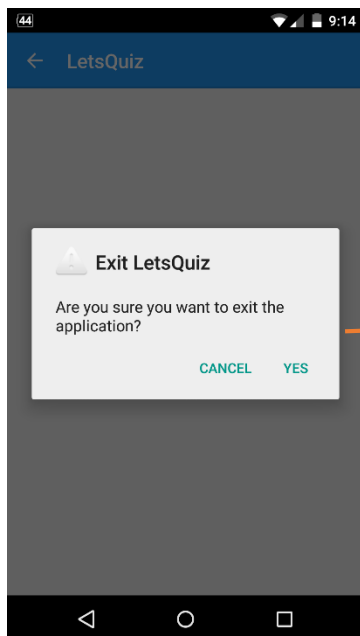

Click **Yes** to confirm and submit your answer. Else, click **No**.

When the quiz ends, the final score is shown,

Click this button  
to go to the main  
screen of the  
application.

Exit the **LetsQuiz** application by clicking the back button (◀),

Click **Yes** to exit  
the application.  
Else click **Cancel**.
